## SUMMARY

---

Seeking a position in the field of Computer Science where I can utilize my skills to further work towards personal and professional development and contribute towards the prosperity of the organization. Highly motivated and eager to learn new things.

## EDUCATION

---

### Amrita Vishwa Vidyapeetham

*B.Tech in Computer Science and Engineering*

Overall GPA: 8.79

August 2019 - Present

*Kollam, Kerala*

## WORK EXPERIENCE

---

### amFOSS

*Member & Mentor*

September 2019 - Present

- amFOSS is India's no-1 Free and Open Source Software club. I have been an active member of the community from the time I joined college. I actively take part in all events and also help in organizing events hosted by amFOSS.

### Developer Student Club

*Member*

September 2020 - July 2021

- Developer Student Club is a university-based community group for students interested in Google developer technologies.
- DSC helps us to grow our knowledge in a peer-to-peer learning environment and build solutions for local businesses and their community

### Traboda

*Full Stack Developer*

December 2020 - April 2021

- Worked on an end-to-end cyber-security learning platform which provide gamified lessons and practical challenges of different Cyber-security tracks.
- This platform also provide services to :
  - Host and participate in CTFs, benchmark user skills.

### Spoon

*Associate Technology Engineer*

June 2021 - present

- Worked on mobile-first credit application which offers micro credit and loan services to build secure credits and other services like bill payments, rewards, subscription management etc.
- I specifically worked on the backend, which is developed using Firebase Cloud Functions to configure the cloud services, deployment, and integrating and testing the vendor APIs.

## PROJECTS

---

### NaWaB Bot

Contributor

- NaWaB bot is a content curator for the topics related to the networks.
- It is one of the best solutions to be updated in the latest technologies, developments, and discussions of networks on Twitter

### Lorax

Contributer

- Lorax is a Flutter application that helps people to be motivated to grow plants and trees.
- The user could track the progress of the growth of the tree, set reminders.

### **Craig Scraper**

Contributor

- Craig Scraper is a clone of the Craigslist website built using Django. This web application provides a better user experience than the real Craigslist website.
